

**SAFER
INTERNET
DAY 7
FEBRUARY
2023**

Aurora Prampolini 1 L

Safer Internet Day (SID) is celebrated around the world in February of each year, with Safer Internet Centres, SID Committees and other supporters in each of the countries coming together to plan and organise events.

This year's SID celebration - the 20th edition - will take place on Tuesday, 7 February 2023 with the slogan "Together for a better internet". Locate your country below to find out what is happening near you to mark the day, and find ideas on how you can contribute to a better internet, not just on SID but all year through.

Protect your password

Only visit websites suitable for children

Be Careful What You Post

Think before you click

tell an adult if you are cyber abused

Please note, we are currently in the process of updating profiles for the current campaign in liaison with SID Committees - if your country's profile is not yet updated for 2023, please check back again soon... or contact them directly using the in-profile page details.

And, if there is not yet a SID Committee in your country but you would be interested in convening one, please **get in touch**. We'd be delighted to hear from you and can help you work towards celebrating Safer Internet Day in future years.

“Together for a better internet”

Do people your age use this app?

Some people my age use this app.

How does it work?

It is a social where you post photos and videos.
